Announcement & Invitation 11th Meeting of the GEBIN

Dear friends and colleagues,

On behalf of the Steering Committee of the German Endocrine-Brain-Immune-Network (GEBIN) it is our great pleasure to cordially invite you to the 11th Meeting of the GEBIN in Munich 2015.

GEBIN was founded in November 1997 in Munich during the Volkswagen Foundation-Symposium "Neuroimmunologie, Verhalten und Befinden", a funding initiative which started in 1990, **25 years ago**. A historical symposium will celebrate this 25th anniversary of interdisciplinary research in the fields of anatomy, dermatology, endocrinology, ethology, gynecology, immunology, neurology, pharmacology, psychiatry, psychology and zoology.

The GEBIN meeting will be divided into several thematic sessions. Each session consisting of short oral presentations will be opened with an introductory key lecture of an internationally recognized expert in the respective field.

As in previous years, GEBIN will also offer an Educational Short Course for graduate and PhD students on April 22-23, 2015.

We are very much looking forward to welcoming you in the wonderful city of Munich in spring for the GEBIN 2015.

Harald Engler and Volker Stefanski
Coordinators of the GEBIN

Norbert Müller, Markus Schwarz
Gregor Schütze, Doris Grillitsch
Local Organizers

Awards

Together with GEBIN, the Foundation "Immunität und Seele" is offering two awards. This scheme is intended to promote excellence in the study of Psychoneuroimmunology at undergraduate or young postgraduate levels, and to encourage gifted students to pursue further postgraduate study or a career within the scope of GEBIN.

GEBIN Prize

of the Foundation "Immunität und Seele" for outstanding insights in Psychoneuroimmunology: € 2.500 and free participation in the meeting

Hephaistos Prize

of the Foundation "Immunität und Seele" for advances in basic methods supporting the research in Psychoneuroimmunology: € 1.000 and free participation in the meeting

Travel Awards

On the occasion of funding the field 25 years ago, the Volkswagen Foundation will support the participation of young researchers at the GEBIN meeting by travel awards. Please motivate your young researchers and students, and invite your colleagues to participate!

The deadline for submitting nominations will be *February 15, 2015*.
