

2019/2020 Immunitaet and Seele (I&S) Promising Young Investigator Grant – Focus on Gut-Brain Axis

About the Grant

The ‚Promising Young Investigator Grant‘ provides up to € 30,000 per year (institutional overhead included) for a period of two years (totaling € 60,000) to enable promising post-docs to perform their own research project in the field of PNI. The 2019/2020 grant period will primarily focus on research projects addressing the gut-brain axis.

Who are we?

The Immunitaet und Seele (‚Immunity & Soul‘, I&S) Research Foundation is a non-profit organization supporting innovative research in the field of psycho-neuro-endocrine-immunology (PNI) with special focus on immune-related research in psychiatric disorders.
